MANUEL BRAVO PROJECT

The Manuel Bravo Project is a new charitable organisation which is starting to help asylum seekers who are unable to find adequate legal representation. The Project is volunteer-based with barristers, solicitors, law students and lay volunteers giving their time to assist people. Any immigration advice is provided by the solicitor or barrister as an individual rather than from the Project.

Following a referral, the papers are reviewed by an immigration specialist. Clients are invited to attend an advice session - usually a Tuesday evening. Teams of qualified lawyers from Leeds law firms then help the client to prepare their case for hearing on a pro bono (free) basis under the supervision and guidance of specialist immigration barristers.

Volunteers ensure the smooth running of the sessions, carry out country information research, undertake administrative tasks at sessions and support the client through the process. We do not currently have resources to represent clients at the hearing itself.

CITY OF SANCTUARY BRADFORD

City of Sanctuary is a national movement to build a culture of hospitality for people seeking sanctuary in the UK. Its goal is to create a network of towns and cities throughout the UK which are proud to be places of safety, and which include people seeking sanctuary fully in the life of their communities. A 'City of Sanctuary' is a place where a broad range of local organizations, community groups and faith communities, as well as local government, are publicly committed to welcoming and including people seeking sanctuary.

Amongst other things, in Bradford we run regular events, engage with the Council and its partners to improve services for those seeking sanctuary, work with local media to get accurate and positive coverage of asylum issues.
